Moreton Bay food web

Sheet 2

Instructions

1. Draw a diagram of your food web below.

Complete the questions on the next page.

1. What are the producers of this food web?

2. The red-throat emperor is considered a key species in this food web.
   a. Which species are eaten by the red-throat emperor?

   b. What would happen to the population of these species if the red-throat emperor was removed from the food web?

   c. What effect would this have on the population of the producers?

   d. How could the animals that eat the red-throat emperor be affected?
