

The Department of Education

Education Horizon Research grant scheme

The Education Horizon research grant scheme offers \$1 million for research projects aligned with Queensland Government objectives and departmental research priorities.

Applications from Queensland researchers are invited under the following categories:

- early childhood education and care
- school education
- cross-category
- open.

Open category applicants (for previous Education Horizon recipients to scale-up, expand or translate their research) can apply for up to \$100,000 per year for two years. Applicants under other categories can apply for up to \$100,000 for a research project of no longer than 18 months in duration.

There may be more than one successful applicant in each category.

Applications close 31 July 2018:
