

**Functional Job Requirements  
For the Position of Teacher Librarian  
Department of Education, Training and the Arts Queensland**

This document was developed for the following purposes: assisting in the development of rehabilitation programs for injured or ill employees, and providing detailed information about job demands to medical practitioners and allied health professionals undertaking medical reviews of Departmental employees.

This report identifies those activities which are essential to successful performance in this role. In determining whether a work activity is a “critical activity” the following questions are considered;

- Does the worker spend greater than 33% of designated work time performing this activity? and / or,
- Is specialized training/experience required to complete this activity? Has this been completed by only a small proportion of staff in this geographical region? and/or,
- Is this activity performed in an environment where no other workers are readily available to assist with its completion? and/or,
- Does this activity occur without prior notice and require immediate attention leaving no time to seek assistance to complete it? and/or,
- Is this activity core to the development of stakeholder relationships, which are essential to achieving successful outcomes? and/or
- Would an inability to perform this activity result in an increased health and safety risk to co-workers, students and/or members of the public?

The development process included; site observation of work environments, staff interviews, staff feedback on draft documents and consideration of benchmark publications for the analysis and description of work activities and job demands specific to particular positions (the Revised Handbook for Analysing Jobs, the Occupational Information Network and the Australian Job Guide, 2006).

This report indicates the average time spent across a working week on each work activity and also on each physical demand of work. In order to make this information meaningful to the various users of this report, in some instances the time spent is expressed as a single word, as a percentage of total time or as an actual amount of time (i.e. hours and minutes). The timeframes used are based on the benchmark descriptions (from the publications above) for expressing frequency of performance of work tasks.

<b>Descriptor</b>	<b>Percentage of Time</b>	<b>Amount of Time based on 25 hours per week</b>
Not present	0%	0 mins
Rare	1%-7%	15 mins – 1 hour 15 mins
Occasional	8%-33%	1 hour 30 mins – 8 hours 15 mins
Frequent	34%-66%	8 hours 30 mins – 16 hours 30 mins
Constant	67%-100%	16 hours 45 mins – 25 hours

**Description of the Role of Teacher Librarian:**

It is the role of a Teacher Librarian to manage the day to day operations of the library. The Teacher Librarian is also responsible for teaching a class of up to 25 to 28 students in grades prep to 7. Students in grades prep to 7 will range in age from 4 to 13 years old. Teacher Librarians are responsible for all aspects of the planning, preparation and delivery and evaluating resource based programs for every student in the allocated classes. In addition, all Teachers have a duty of care to ensure the safety and wellbeing of all students within their care.

### Risk Based Physical Environmental Considerations:

- There may be clutter in the work area, increasing the risk of trip hazards, awkward bending and lifting, and poor storage practices
- Items, furniture and fixtures may be poorly positioned or designed by staff members, requiring the adoption of awkward postures
- There may be limited/confined space for movement during performance of some activities (e.g. when using smaller sized chairs to interact with children, sitting on floor)
- There may be limited knee space when seated, resulting in trunk rotation (due to smaller furniture required for certain student/age group)
- There may be constant low-level ambient noise (from students, traffic, school activities e.g. music practice etc)
- There may be limited classroom lighting and ventilation in some facilities
- Some work may be performed outdoors or in an area exposed to the elements
- Fine motor work may be performed in temperatures of 16 degrees or lower and above 24 degrees, due to local environmental conditions and capacity to school facilities to control ambient air temperatures
- Work may be performed in temperatures above 24 degrees (occasionally in summer)

Psychosocial Risks to be Considered	Social / Interpersonal Demands	
Time pressure/high workload- while deadlines exist for many tasks, the level of demand is dependent upon school environment and staffing level. Teachers may also be required to address multiple demands and a large number of unplanned interruptions may occur throughout the day. E.g. more hands on teaching may impacts on time available for resource preparation.	Performing for or Working Directly with the Public - parents and students	Coordinating or Leading Others - students
Poor worker/team leader relationships- may exist in some environments.	Communicating with Persons Outside the Organisation - parents and community members	Coaching and Developing Others - aides and students
Environmental Stress- constant low level ambient noise from students, PA announcements, school bells etc requiring considerable projection of voice to be heard. Some temperature variation during winter and summer.	Establishing and Maintaining Interpersonal Relationships - with students, staff and parents	Coordinating the Work of Others - aides and students
Insufficient work breaks- shortened breaks may be taken on a voluntary basis due to high workload and time constraints. Breaks may be limited by meal and playground supervision duties, particularly if there is insufficient planning e.g. unplanned wet weather duties. Although break times are stipulated, teachers do not always receive an uninterrupted break.	Resolving Conflicts - between students and Negotiating with Others - students/parents/ staff	Interpreting the Meaning of Information for Others - students
Investigations - participate in reporting, investigation and resolution processes, including mandatory reporting of suspected child abuse or neglect and participation as a witness or party to performance, discipline, grievance, WorkCover or other processes.	Training and Teaching - students	Assisting and Caring for Others - students (may include first aid)
Policies - comply with departmental policies, procedures, guidelines and the code of conduct, including undertaking risk management processes to ensure the health and safety of students and others under their supervision or direction.	Guiding, Directing, and Motivating - students	This cell intentionally left blank.

## Functional Job Requirements For the Position of Teacher Librarian

### Considerations for Assessment of Physical Job Fitness:

- Assessment of sustained sitting capacity of 40 minutes, including 15 minutes on small school sized chair and 15 minutes on floor either cross legged, kneeling or crouching (acknowledging ability to regularly vary posture)
- Sufficient flexibility to allow adoption of awkward postures when working with children, particularly at floor level
- Capacity for grip patterns required for repetitive handling of books
- Assessment of fine motor dexterity or actual keyboard operation for typing activities
- Symmetry, range and discomfort with movements of the spinal and peripheral joints, including hips, knees, ankles, shoulders and wrists
- Able to ascend and descend 2 x flights of stairs
- Ability to lift and carry heavy and/or awkward loads with some assistance
- Sufficient flexibility to allow adoption of awkward postures when working with students, particularly on floor level
- Ability to sustain constant dynamic standing throughout the day with minimal sitting breaks
- Sufficient visual and auditory function to enable interaction and response to students

### Other Considerations

- History of neck/shoulder discomfort associated with static and sustained repetitive neck flexion postures
- History of upper limb, lower limb or spinal pain with repetitious or static tasks
- History of lower back pain with sustained sitting
- Knowledge of ergonomic principles for clerical workstations and knowledge of / ability to learn safe crouching/stooping posture (with flexion occurring at the hips rather than in the lumbar spine)
- Knowledge of correct manual handling techniques i.e. ability to bend at hips, bend knees and squat with a neutral spine
- Knowledge of vocal health and techniques to enable safe projection of voice
