

Staff Space

Staff can:

- ✓ build a professional profile and network with Queensland educators
- ✓ create and share resources
- ✓ moderate and manage student access to blogs, collaborative spaces and Learning Pathways
- ✓ learn and teach collaboratively
- ✓ access OneChannel and online courses to support their professional development.

High quality digital resources

- ✓ Find thousands of quality assured resources via a single search.
- ✓ Discover teacher contributed resources.
- ✓ Search resources by Australian Curriculum content descriptors, year levels and curriculum areas.
- ✓ Save favourite resources and add them to edStudios, Learning Pathways and Virtual Classrooms.

edStudio

Collaborative authoring spaces for students and teachers. Provide students with Page Author or Trusted User status to edit and create new pages.

edStudios have drag and drop page components including:

- ✓ content (html or text)
- ✓ digital resources and edTube media
- ✓ blogs, chat, forums and polls
- ✓ navigation and wide range of designs.

edStudios can be copied for different users and have multiple owners. Use the Access Key to share your edStudio with your class and colleagues.

edTube

edTube is your multimedia sharing gallery. Upload your video, images and audio to edTube albums to publish, store and share.

All media is automatically converted and compressed after uploading to the album.

EdTube albums can have multiple owners and contributors. Use the Access Key to share your edTube albums with your class and colleagues.

Learning Pathways

Create, collate and share topic based collections of resources to differentiate learning. Learning Pathways include:

- high quality digital resources
- documents and media
- website links

Learning Pathways can be copied for different users and have multiple owners. Use the Access Key to share your Learning Pathways with your class and colleagues.

Web conferencing

Connect in real time with your class and invited guests. Create web conference sessions to collaborate with whiteboard, chat, audio, video and screen-share tools. Web conferencing sessions are created and accessed via Virtual Classrooms. Share your session details with a direct session link or enrol your class in the Virtual Classroom.

Virtual Classrooms

Create and enroll students in Virtual Classrooms to support teaching and learning including:

- lesson activities and units of work
- homework
- collaborative projects
- discussions and feedback
- online summative assessments
- Grade Centre featuring all student assessment.

Professional development

Access self-paced induction, training and professional development courses by registering through the course catalogue.

Participate in live professional development and educational programs via web conferencing by registering through OneChannel. Program recordings may also be available via the OneChannel program calendar.
