The series of four Preparatory Readers is designed to meet the needs of Grades 1 and 2. Each book follows its predecessor naturally, and throughout the series, lessons will be found to have been carefully graded. Each of the books is illusirated in colour with a view to making it attractive to young children, and every means that matter, grading, and illustration can afford has been employed to foster in children a liking for books as books, and to assist in developing interest in and a taste for reading.

The work of compiling, printing, and illustrating has all been done within the State of Queensland.
