State Schools Improvement Strategy 2022–2026
Every student succeeding

Vision
Empowering lifelong learners through a student-centred approach.

Purpose
The State Schools Improvement Strategy informs our policies, decisions and actions.

Priorities
- Success and wellbeing for all children and students as they transition through each stage of learning in an inclusive and equitable education system.
- Continuous improvement in the access to, and teaching, learning and assessment of, the Queensland Kindergarten Learning Guideline, the Australian Curriculum and the senior syllabuses.

Principles
- Alignment — our shared understanding of the Queensland Kindergarten Learning Guideline, the Australian Curriculum, the senior syllabuses and the policies that govern our work and the strategic use of resources.
- Precision — how we use evidence to identify the ‘right work’ and do the ‘work right’ by building capability, planning, implementing, monitoring and reviewing.
- Intentional collaboration — the deliberate actions we take to work together, learn together and improve together.

School Improvement Model

School Improvement Hierarchy
Where we are

Inquiry Cycle
How we learn

Standards of Evidence
What impact we have

Guiding questions
1. How are all students engaged and improving in their learning?
2. How do we know and monitor our impact?
3. What can we do better?
4. How are we sharing our learning?

Queensland state schools commit to providing opportunities for every Aboriginal and Torres Strait Islander child and student to achieve success by working with First Nations people to co-design culturally appropriate whole of school strategies.
