

Decoding two syllable words

Help your child to
sound out and read
each syllable.

Blend the syllables to
say the word.

Draw a picture to
match the word.

What is a syllable?

A syllable is the **smallest meaningful unit of a word** and must have at least one vowel sound. Words may be one syllable in length like cat, fort and ten. Words may more than one syllable in length like flow-er, rock-et and tenn-is.
