What should I do to prepare for learning at home?

We are all in this together.
Teachers have been working hard to plan for home-based learning and have developed learning programs that best suit your child. Your child’s teacher will be in contact. Remember we don’t expect you to be a teacher.

Here are some tips to make day one easier:

- Talk with your child about what their home-based learning will look like
- Treat day one as a ‘starting school’ or orientation day
- Set up a learning space – try to reduce distractions
- Establish a routine – use the timetable provided by your school
- Check that your child has everything they need: materials, log in details, etc
- Ask your child what they think they will be learning during the day
- Don’t worry if things don’t go to plan
- Take regular breaks
- At the end of the day ask your child what went well – and what they could do differently
- If you have any questions: - ask your school - talk to your child’s teacher.

Checklist

✔ Talk about home-based learning
✔ Set up a learning space
✔ Establish routines
✔ Plan breaks
✔ Check-in with your child regularly
✔ Try to reduce distractions
