# Beginner Language Experience

The Beginner Language Experience program offers Queensland Years 4–6 state school students an exciting opportunity to learn a new language from the comfort of their own home.

Participants will connect with experienced university tutors in an engaging online environment, where they will enjoy a fun learning experience over five consecutive days. Through interactive lessons and hands-on activities, participants will develop their language skills while broadening their cultural horizons and developing global competence.

This program not only introduces participants to a new language and deepens their understanding of its associated culture, but also equips them with the knowledge, skills and cultural awareness needed to thrive in an increasingly interconnected world.
