

STEM  
Taiwan Global  
Student Program

## STEM Taiwan Global Student Program

The STEM Taiwan Global Student Program, delivered by Global Engagement, within the Department of Education International, offers Queensland Year 10 students an exciting opportunity to be immersed in innovative experiences and engage with the rich culture of Taiwan.

Participants will engage in industry visits and hands-on activities that highlight Taiwan's advancements in Science, Technology, Engineering and Mathematics (STEM) fields to deepen their understanding of the practical applications of these disciplines. Participants will also delve into Taiwan's diverse cultural heritage and experience Taiwanese school life at a local New Taipei high school, where they will develop their language skills through participation in a variety of classes and activities.

Through this program, participants gain a deeper appreciation for STEM disciplines and Taiwanese culture while cultivating the knowledge, skills and cultural awareness needed to thrive in an increasingly interconnected world.
