

1 Sandwiches, rolls and wraps

Sandwiches, rolls and wraps

Bread ideas: Wholemeal, wholegrain, rolls of different shapes, pita breads, lavash bread, focaccia, Lebanese, rye.

Spreads: Use polyunsaturated or monounsaturated margarines or polyunsaturated mayonnaise. Spread thinly.

Ideas of fillings for sandwiches, rolls and wraps include:

- salad (shredded lettuce, grated carrot, tomato, beetroot, cucumber, sprouts)
- · grated carrots and sultanas

Lean chicken with:

- salad
- coleslaw
- combine chicken with diced celery and natural yoghurt
- · low fat mayonnaise and lettuce
- · tandoori flavour, cucumber and yoghurt
- · sweet chilli and salad
- satay and salad

Lean red meats:

- · roast beef
- minced meat
- lamb kebabs

Egg with:

- · low fat mayonnaise and lettuce
- salad

Lean ham with:

- salad
- · seeded mustard, tomato, lettuce
- · chutney and lettuce

Tuna (in spring water or vegetable oil) with:

- pineapple and lettuce
- · tomato and cucumber
- · low fat mayonnaise and shallots

Cheese (reduced fat) with:

- salad
- tomato
- ricotta cheese with carrot and sultanas

Other fillings:

- · baked beans
- · peanut butter, grated carrot and sultanas
- hummus, tomato, cucumber
- · felafel (sliced), tomato and lettuce

Sandwich and roll fillings — quantity guide (to assist with ordering and standardised serves)		
Ingredients per sandwich/roll	10 sandwiches/rolls	50 sandwiches/rolls
Salad vegetables		
Carrot grated, 1 tablespoon	2 medium	8 medium
Lettuce, finely shredded, 2–3 tablespoons	1/4 medium	1 medium
Tomato, thinly sliced, 2–3 slices	3 medium	15 medium
Cucumber, 2 slices	1 small	3 large
Pineapple, thinly sliced, 1 slice	10 slices (1 x 440 g)	50 slices (5 x 440 g)
Meat, fish, eggs and alternatives		
Baked beans, 2 tablespoons	1 x 440 g can	2 x 900 g cans
Cheese, sliced, 1 slice	10 slices (250g)	50 slices (1.25 kg)
Cheese, grated, 2 tablespoons	200 g	1 kg
Eggs, hard boiled, half an egg mashed		
with milk/low fat mayonnaise	5 x 60 g eggs	25 x 60 g eggs
Ham, sliced, 1 slice	10 slices (250 g)	50 slices (1.25 kg)
Meats, cold, sliced, 1 slice	10 slices (250 g)	50 slices (1.25 kg)
Chicken meat, free flow, 2 tablespoons	500 g	2.5 kg
Tuna, salmon, 11/2-2 tablespoons	1 x 440 g	5 x 440 g
Spreads		
Margarine	100 g	500 g

Successful makeovers — recipe modification

Many recipes call for more fat, sugar and salt than is needed for good flavour and quality. Depending on the recipe, substitute or reduce ingredients to decrease fat, sugar and salt and add ingredients to increase the fibre content and nutritional quality of the food.

Always test the recipe when making a modification. Adjust the ingredients and method until you have a consistent result. Trial samples with students.

Write up the recipe on the Recipe template, which includes the ingredients list and instructions as well as the cost of packaging the food. The template is found on the CD-ROM.

Easy Cheese Muffins

- 1 cup wholemeal self-raising flour
- 1 cup reduced-fat, grated cheese
- 1 cup reduced-fat milk

Mix the ingredients together (do not overmix). Spoon into lightly greased patty tins. Sprinkle with a small amount of paprika. Bake in 200°C oven for 10 minutes.

Variations

Add chopped parsley or shallots, and chopped semi-dried tomatoes for colour and flavour.

(Energy 469 kJ, Sat. fat 1.6 g, Fibre 2.3 g)

When modifying recipes, ask three questions:

- Can the ingredient be left out?
 Are high fat, salt and sugar ingredients there for appearance, or for flavour or texture?
- Can the ingredient be decreased?
 Identify the high fat ingredients, such as oil, margarine, butter and cream, ingredients such as syrups, honey and sugars, and ingredients that are salty.
- 3. Can a substitute be used?
 Is there a substitute for any ingredients that can improve the nutritional quality of the food?

Pikelet Mix

This is a bulk pikelet mixture. It will keep well stored in a cool place in an airtight container.

Dry Mix

- 2kg wholemeal flour
- 1 kg self-raising flour
- 4 level tablespoons bicarbonate of soda
- 1 cup brown sugar, firmly packed 500 g skim milk powder

Mix the dry ingredients together and store in an airtight container.

Making pikelets

For each cup of this mixture add 1 egg and ½ cup water. This quantity will make 10–12 pikelets. Add more water if the mixture is too thick. Cook on a non-stick or lightly oiled griddle or electric frypan. Serve on the same day or freeze.

Variations

- top with ricotta cheese and fresh strawberries
- add mashed banana
- add tinned unsweetened apple pieces
- add dried fruit such as sultanas or chopped dates

(Energy 358 kJ, Sat. fat 0.6 g, Fibre 1.7 g)

Ideas to reduce total fat and kilojoules

- In many baked goods such as muffins and cakes, try replacing half to all of the fat with unsweetened apple puree or low-fat yoghurt.
- Use baking and grilling as preferred methods of cooking rather than frying.
- Replace whole milk with reduced-fat milk.
- Use naturally lower-fat cheeses, such as feta or mozzarella, or use reduced-fat varieties. Cheese with 25 percent less fat has good taste and texture and melts well.
- Use reduced-fat evaporated milk instead of cream.
- Use natural low-fat yoghurt as a substitute for sour cream.

Ideas to reduce sugar

- In baked goods such as breads and biscuits reduce sugar by one-quarter to one-third. Extra spices like cinnamon or nutmeg or flavouring like vanilla essence can be added to compensate for reduced sweetness.
- Buy unsweetened frozen fruit or fruit canned in water or its own juice.
- Replace one-quarter of the sugar in biscuits, bars and cakes with an equal amount of skim powdered milk. This reduces kilojoules and increases the calcium, protein and some vitamins in the food.

Ideas to reduce sodium

- Do not add salt to fillings in sandwiches, rolls and wraps.
- Gradually reduce the amount of salt in a recipe each time it is made. Customers will adjust to a less salty flavour over time.
- Choose herbs such as coriander or parsley and spices such as paprika and cumin, that complement the food, and add flavour instead of salt.
- Choose garlic and onion powder rather than garlic and onion salt.
- Do not add salt to the water when cooking pasta, noodles or rice.

Ideas to increase fibre

- Keep peels on fruits and vegetables whenever possible.
- Add extra vegetables to sandwiches, burgers, wraps, soups, salads, bread cases and in pizza toppings.
- Add fruits dried and fresh to muffins, pikelets and pancakes.
- Substitute wholemeal flour for half of the flour when making breads, muffins, pancakes/pikelets or other grain products.
- Use wholemeal bread for jaffles.
- Use wholemeal or wholegrain English muffins for pizza bases.
- Wholemeal pita breads, filled with salad, can be used as a variation to sandwiches.
- Brown rice makes a tasty 'microwaved fried rice'.

How to use the CD-ROM

On the attached CD-ROM you will find all the materials in this Tool Kit plus additional templates. The materials are in Adobe Acrobat PDF format (suitable for use on both Windows PC and Apple Macintosh).

Materials on the CD-ROM

- Tuckshop Improvement Checklist template
- · Tuckshop Action Planner template
- Phasing in New Foods template
- Smart Choices menu templates for primary and secondary schools
- · Recipe template

Viewing

The CD-ROM should start automatically. If not, please open the PDF titles Start _Here. Select the coloured icons to open the document you wish to view (see example below).

When you have finished viewing the material, close the window (or select Close from the File menu on your computer).

To print the material, please follow the instruction below.

Printing

To print copies of any of the materials, select the coloured icon listing the document you wish to print. Then select Print from the File menu on your computer. Click on OK to begin printing the material.

Using templates

The templates are in MS Word format, suitable for use on both Windows PC and Apple Macintosh. Select and type over existing text to change. The templates have been designed to be printed on A4 size paper, and are suitable for printing in colour or black and white.

About Adobe Acrobat Reader

The material included on the CD-ROM is in Adobe Acrobat PDF format. To view the files you will need to have Adobe Acrobat Reader installed on your computer. If you do not have Adobe Acrobat Reader installed, there is a copy provided on the CD-ROM. You will find an installer for PC or Macintosh in the folder labelled 'Acrobat'.
